

Sunêlia

is betting on sunny holidays

We've updated our **SUNÊLIA SUNSHINE** deal, for all stays of 7 days and over in our accommodation (counted from the day of arrival to the final evening of your stay) on eve of departure, taken at a SUNELIA* site between April 1st and October 31.

- If you enjoy less than 3 days of sunshine** over the course of your stay, we'll give you a cheque for **€100**
- If you have no sunny days at all** during your stay, we'll give you a cheque for **€200**

It's free!

The SUNÊLIA SUNSHINE guarantee comes free with any booking (made at least 3 days before your date of arrival), as long as you are staying:

- for 7 nights or more,
- in our accommodation,
- between April and October 2011 (depending on the opening dates of the SUNÊLIA site).

Nothing to sign!

The SUNÊLIA SUNSHINE guarantee is automatic, as long as your stay meets the conditions specific to the offer. If so, you will automatically be sent a cheque for

€100 or **€200** as the case may be.

*does not include Sunêlia Partners

** For the offer to take effect, there must be less than 2 hours of direct sunlight between 10am and 6pm on the given day, as calculated by the METNEXT Sun Index ©, which calculates the sunshine duration for all Sunêlia sites every day. Sunshine duration is defined as the period during which the sunlight is of sufficient intensity ($\geq 120W/m^2$) to produce clear shadows (source: Météo-France). The index is calculated by METNEXT (a division of Météo France) on the basis of data recorded by the Météosat 2 satellite.
